KEEN KUTTER**POCKET CUTLERY****OUR KEEN KUTTER POCKET KNIVES**

Are Celebrated for Their
SUPERIOR QUALITY, STYLE AND FINISH.

They Are Unsurpassed by Any Others.

The Blades are Forged from

THE BEST GRADE OF POCKET CUTLERY STEEL

and are Hardened and Finely Tempered

BY THE MOST SKILLED AND EXPERIENCED CUTLERS.

Every Knife is Sharpened Ready for Use

AND IS FREE FROM FLAWS AND IMPERFECTIONS.

Any Not Proving so, Will be Replaced,

but we Will Not Redeem Knives that are Worn Out

or That Show Abuse, are Rusty or When More than One Blade is Broken.

In Whetting a Pocket Knife Use a Good Oil Stone, Holding the Blade at an Angle of Twenty Degrees, and Draw Towards You from Heel to Point.

Oil the Joints Occasionally, as they are

Liable to Wear Rough and the Blade Points Protrude.

**Our Guarantee**

Every Article Bearing the **KEEN KUTTER** Brand is Guaranteed to be Properly Made of the Best Material, Carefully Finished and Inspected and that it Will Perfectly Serve its Intended Purpose.

If there is a Defect in the Steel it Will Break.

If there is a Temper Crack in a Tool, it will Break.

If a Tool or Knife Blade is Not Properly Tempered, the Steel will Show it.

These Things Sometimes Happen, and the **KEEN KUTTER** Guarantee Gives You Full Protection.

... But ...

Abuse, Rust and Misuse will Ruin any Tool; Dry Grinding will Draw any Temper; Prying with a High Tempered Knife Blade will Break it.

Such Mistreatment is Not Covered by any Guarantee—Failure from these and Similar Causes is not the Fault of the Seller.

Abused Tools Tell their Own Story

... and ...

The Abuser Must be the Loser.

COSTS FOR IMPRINTING HANDLES AND ETCHING BLADES OF KEEN KUTTER POCKET KNIVES

The information on this page has been compiled as a brief, yet convenient, guide to the additional charges made for imprinting handles and etching blades on gift or advertising pocket knives.

Imprinting can be done on all genuine pearl or smooth celluloid handle pocket knives in the catalog. Lettering is available in gold, black, red, green, blue, and any other solid color that may be desired.

EXTRA CHARGE FOR IMPRINTING ONE SIDE OF THE HANDLE COSTS ARE DOUBLED IF BOTH SIDES OF HANDLE ARE IMPRINTED

1 - 150 pieces.....	D2C0	for each line
150 pieces or more.....	D1C2	for one or two lines
Individual names regardless of quantity.....	D2C0	for each line

The illustration below shows, in actual size, No. S840AK imprinted with the two standard block types that are available for stamping. No die charge is made if either of these types is used. However, if trademarks, special or facsimile letters are requested an additional die must be made and charged at cost. Die costs usually range from \$25.00 to \$100.00, depending upon the intricacy of the design or lettering. Write for quotation.

Note all imprinting is done on the side of the handle without the shield unless specifically requested on the shield side.

All pocket knives shown in catalog with the exception of those with Stag and Pakkawood handles will take imprinting.

LARGE TYPE—STYLE A
SMALL TYPE—STYLE B

On No. S840AK, using the larger type (Style A) a maximum of 30 letters and spaces can be imprinted on one line. The smaller type (Style B) enables maximum placement of 35 letters and spaces per line. Imprinting the shield side of the handle limits the larger type to 16 letters and spaces to the line, the smaller to 21 letters and spaces per line. To safeguard the beauty of the knife, we suggest the use of the smaller type whenever two line imprinting is desired.

The number of letters and spaces that can be imprinted per line will vary with the size of the pocket knife. As the two standard sizes of types are illustrated in full actual size, it is possible to determine fairly accurately how many letters and spaces can be placed on any handle by taking the dimensions of the knife from the catalog description, drawing an outline of the handle, and pencilling in the words to be imprinted.

EXTRA CHARGE FOR ETCHING ONE SIDE OF THE BLADE.

Regardless of quantity.....	D2C3	for each line
-----------------------------	------	---------------

Etching can be placed on the underside of the large blade without changing the regular Keen Kutter trademark or the brand name can be omitted and the special etching put in its place. There is no die charge if standard block type is used. For facsimile lettering or trademarks a special die must be made and charged at cost. Write for quotation.

Individual gift boxes are available at an additional charge of D0C7 each and plastic purses—D0C5 each. A box or purse is recommended as the perfect finishing touch to a beautiful gift or advertising pocket knife.

Please Allow Four to Six Weeks on Each Imprinting or Etching Job.

SHAPLEIGH'S new *"Break-a-Way"*

The Versatile Cutlery Showcase

with Trays Designed So Flexibly They May

HAND MADE POCKET KNIVES

KEEN  KUTTER

Hand made by the most skilled and experienced cutlers in America from the finest grade of crucible pocket cutlery steel available. These pocket knives are celebrated for their perfect cutting edges, ease of operation, superior finish and symmetrical appearance. Every blade carefully hardened and tempered; keenly sharpened and honed. The master blade is crocus polished on the etched side only. All other blades are glaze finished, except as noted. Each knife is unconditionally guaranteed against flaws and imperfections.

Bone stag handles. Three full polished blades: Large clip, small spey and sheepfoot. Nickel silver square bolsters, shield and back. Brass lining. Length 4 inches.
