# Premium Mechanics' Tools

The largest variety of tools manufactured under any one brand and bearing the "Swan" trade mark

**T**he same high standard of quality and finish, which has, in the past years established their superiority, is still adhered to in their manufacture. The best and finest quality of steel is used. The finer the steel the greater the care that must be exercised in its manipulation, and each tool accordingly passes through from 35 to 40 distinct operations, after which it must stand the strain of a crucial test before it is put upon the market. The name of The James Swan Company upon a tool is a guarantee which no buyer can afford to overlook. We are fully prepared to furnish any special goods in this line at the lowest prices, which will be quoted upon application, every tool produced is fully warranted.

**E**xport—facilities for furnishing goods for export are exceptional, and especial care is exercised in filling orders for foreign trade.

# SWAN SHORT SOCKET CHISELS

ASSORTED IN SETS, IN WOODEN BOXES

Nos. 6706 1-4 and 6706 1-2

These chisel boxes are furnished with continuous brass springs, holding each chisel firmly in place, and preventing a strain upon the hinges. The construction is durable and compact and the boxes are made of hardwood, varnished and finished with care. All chisels packed in this manner are carefully selected and fully warranted.

## SIX CHISELS

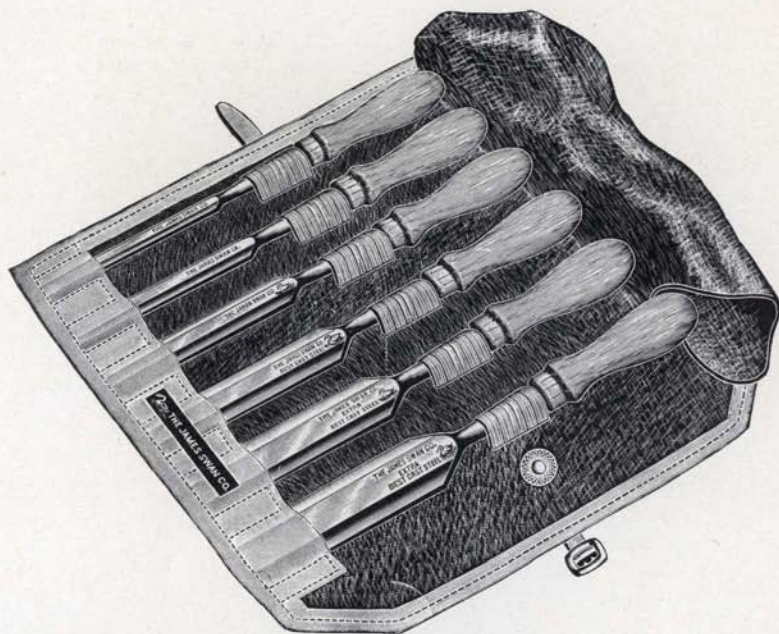

Set consists of one each —  $\frac{1}{4}$ ,  $\frac{1}{2}$ ,  $\frac{3}{4}$ , 1,  $1\frac{1}{4}$ ,  $1\frac{1}{2}$  inches

Set	Chisel Number	Quality and Finish	Edge	Handle	Set
No. 6706 $\frac{1}{4}$	7010 $\frac{1}{4}$	Extra	Plain	Applewood.....	\$3.85
No. 6706 $\frac{1}{2}$	7010 $\frac{1}{4}$	Extra	Plain	Hickory, Stained.....	3.85
No. 6506 $\frac{1}{4}$	7015 $\frac{1}{4}$	Extra	Bevel	Applewood.....	4.50
No. 6506 $\frac{1}{2}$	7015 $\frac{1}{4}$	Extra	Bevel	Hickory, Stained.....	4.50

One Set in a wooden box

# SWAN SHORT SOCKET CHISELS

ASSORTED IN SETS, IN CANVAS ROLLS

Nos. 0506 1-4 and 0506 1-2

The cut illustrates a Flexible Canvas Roll. These rolls are made of heavy canvas, properly lined with canton flannel and have an extra flap, securely holding each chisel in its separate pocket. All chisels packed in this manner are carefully selected and fully warranted.

## SIX CHISELS

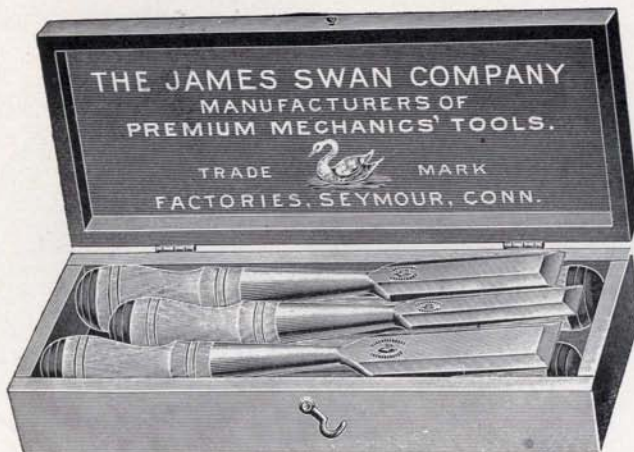

Set consists of one each —  $\frac{1}{4}$ ,  $\frac{1}{2}$ ,  $\frac{3}{4}$ , 1,  $1\frac{1}{4}$ ,  $1\frac{1}{2}$  inches

Set	Chisel Number	Quality and Finish	Edge	Handle	Set

No. 0506 $\frac{1}{2}$	7015 $\frac{1}{4}$	Extra	Bevel	Hickory, Stained.....	4.75

One Set in a canvas roll

# SWAN SOCKET BUTT CHISELS

ASSORTED IN SETS, IN WOODEN BOXES

No. B7035 1-2 - 5

## SOCKET BUTT CHISELS

These chisels have large handles, designed more particularly for exclusive hand-work. They are especially adapted for close work in general.

The boxes are nicely finished and have hinged covers. Chisels packed in this manner are carefully selected and fully warranted.

## FIVE CHISELS

Set consists of one each — 1, 1¼, 1½, 1¾, 2 inches

Set	Chisel Number	Quality and Finish	Edge	Handle	Set
No. B7010½ - 5	7010½	Extra	Plain	Selected Hickory.....	\$3.75
No. B7030½ - 5	7030½	Extra	Plain	Leather Capped.....	4.10
No. B7015½ - 5	7015½	Extra	Bevel	Selected Hickory.....	4.30
No. B7035½ - 5	7035½	Extra	Bevel	Leather Capped.....	4.65

One Set in a wooden box

ROSE TOOLS, INC.

# SWAN TANGED BUTT CHISELS

ASSORTED IN SETS, IN WOODEN BOXES

No. B7135 1-2 - 5

## TANGED BUTT CHISELS

These chisels have large handles designed more particularly for exclusive hand-work. They are especially adapted for close work in general.

The boxes are nicely finished and have hinged covers. Chisels packed in this manner are carefully selected and fully warranted.

## FIVE CHISELS

Set consists of one each — 1, 1¼, 1½, 1¾, 2 inches

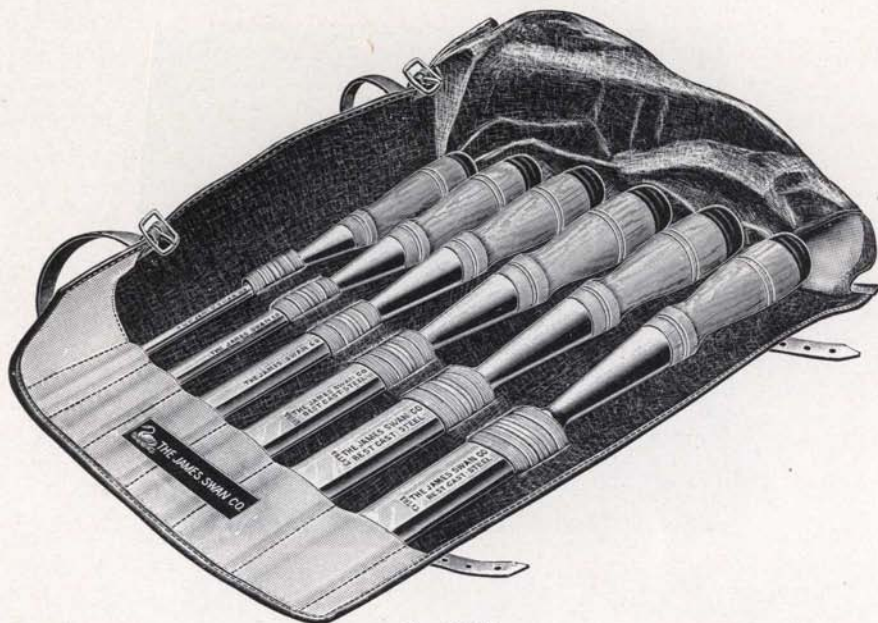

Set	Chisel Number	Quality and Finish	Edge	Handle	Set
No. B7135½ - 5	7135½	Extra	Bevel	Leather Capped.....	\$5.20
No. B7139 - 5	7139	Extra	Plain	Leather Capped.....	4.75

No. 0606	7036	Extra	Dia'd Back	Leather Capped.....	5.75

One Set in a canvas roll

# SWAN SOCKET FIRMER CHISELS

ASSORTED IN SETS, IN PATENTED DUPLEX BOXES

No. 7512A

Attention is especially called to an absolutely new departure in chisel boxes. The Swan Duplex Chisel Box, by its simplicity, both in construction and operation, commends itself at once to the skilled artisan. By a simple operation in opening the box the entire set of chisels is available for immediate use. Its compactness is not only handy, but a time saver. This box is made of hardwood and finely finished. It will not be furnished except when ordered in sets, complete with chisels.

## TWELVE CHISELS

Set consists of one each —  $\frac{1}{8}$ ,  $\frac{1}{4}$ ,  $\frac{3}{8}$ ,  $\frac{1}{2}$ ,  $\frac{5}{8}$ ,  $\frac{3}{4}$ ,  $\frac{7}{8}$ , 1,  $1\frac{1}{4}$ ,  $1\frac{1}{2}$ ,  $1\frac{3}{4}$ , 2 inches

## CHISEL BOX NO. 7

Any of the regular socket firmer chisel sets will be packed in this box at the following additions:

Set 6 Chisels.....	\$0.45 Set
Set 8 Chisels.....	.45 Set
Set 9 Chisels.....	.45 Set
Set 12 Chisels.....	.55 Set

## CHISEL BOX NO. 8

Any of the regular socket firmer chisel sets of 12 chisels will be packed in this box at the following addition:

Set 12 Chisels.....	\$1.10 Set
---------------------	------------

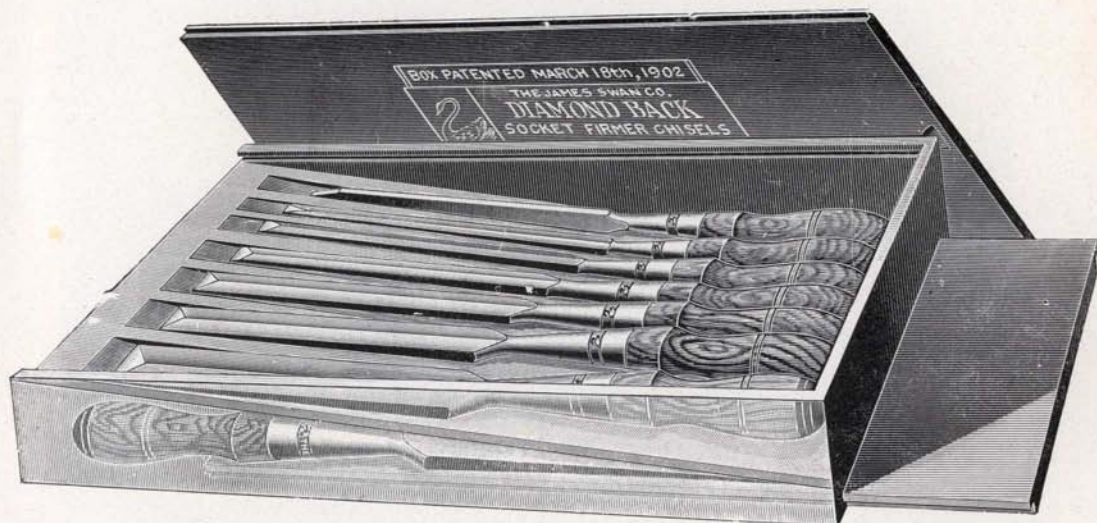

The No. 8 box is similar in appearance to the No. 7 box, but is constructed with a Patent Spring Bottom, which allows adjustment of the chisels, and yet holds them firmly in position.

ROSE TOOLS, INC.

# SWAN SOCKET FIRMER CHISELS

ASSORTED IN SETS, IN WOODEN BOXES

No. 5612

These patented compartment boxes are the most practical and durable known. They are compact and convenient, have no hinges to break or springs to get out of order, and are made of hardwood, varnished and well finished. The chisels are placed in grooves, cannot come in contact with each other, and any chisel may be removed without interfering with the others. All our chisels packed in this manner are carefully selected and fully warranted. These boxes will not be furnished except when ordered in sets complete with chisels.

 No. 70—3 to 11-16ths, one dozen; 12 to 16-16ths, one half dozen; 17 to 32-16ths, one-third dozen in a box

No. 80. — An oil-tempered strictly high-grade full polished Auger Bit, accurate for size. Every Bit carefully tested and inspected.

No. 86. — This is the same Bit as the No. 80, with the exception that the Hollow of Twist is Fire-Blued.

No. 87. — This Bit has many of the qualities of the No. 80, lacking only the finish, it having a black head.

No. 70. — The original spur and side-lip Bit with a long standing record. This Bit has been made on our premises since the year 1810.

No. 50 — 3 to 11-16ths, one dozen; 12 to 16-16ths, half dozen; 17 to 32-16ths, one-third dozen in a wooden box

No. 90 — 3 to 16-16ths, half dozen; 17 to 32-16ths, one-third dozen in a wooden box

\* No. 90, 3 to 6-16ths only, single twist, which is the strongest for small bits.

No. 50. — The No. 50 Rapid Bit has the same features as the No. 70 but with a coarser crimp and a faster cutter. It is a very rapid Bit as its name implies.

No. 90.—Particular attention is called to the form of the lips of these goods. There is no spur to force into the wood ahead of the cutting lip, which curves forward, so the wood is not torn in starting. This is the only Bit that will follow another and make the hole larger, and Cook's Bits will bore in end wood better than any others. We have made Cook's Bits for the past 40 years, and are equipped with new machinery for making first-class tools.

# SWAN AUGER BITS, ASSORTED IN WOODEN BOXES

These sets are packed in slide cover hardwood boxes, natural wood finish.

The Patent Compartment Boxes are the most practical and durable known. They are compact and convenient, have no hinges to break or springs to get out of order, and are well finished. The bits are placed in grooves, which prevent their coming in contact with each other; any bit may be removed without interfering with the others. All Auger Bits packed in this manner are carefully selected and fully warranted.

## SIX BITS — 11 1-4 QUARTERS

Set consists of one each — 4, 5, 6, 8, 10, 12-16ths

Set No.	Bit No.	Description	Set
B11	10	Cast Steel Auger Bits.....	\$1.60

## COMBINATION BIT SET

This is an ideal bit set for home use consisting of five Auger Bits, one each — 4, 5, 6, 7, 8-16ths, and one Expansive Bit, cutting from  $\frac{1}{2}$  to  $1\frac{1}{2}$  inches.

ROSE TOOLS, INC.

# SWAN AUGER BITS, ASSORTED IN NEW EXTENSION BIT BOX

## SETS NOS. E 5132 1-2 TO E 5932 1-2

Attention of the trade is especially called to an absolutely new departure in compartment bit boxes. The Swan Extension Bit Box, by its simplicity, both in construction and operation, makes it one that the skilled mechanic cannot afford to be without.

By one operation in opening the box the entire set of bits is available for use, and likewise by one operation the box can be closed.

The bits in the first tray are available for use by simply lifting the cover without disturbing the bits in the other trays. This is a distinct advantage, and is not only handier but a great time saver for the skilled mechanic.

These boxes are made of hardwood and finely finished, and will not be furnished except when ordered in sets complete with bits.

## THIRTEEN BITS — 32 1-2 QUARTERS

Set consists of one each — 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16-16ths

## SWAN EXPANSIVE BITS

Nos. 1 and 2

Nos. 6 and 7

No. 1 and No. 2 Expansive Bits are known to be perfect Bits in all ways, made from the best of steel and the only Bits made to lift the chip when boring; needs no wire or nail to pry out the chips.

No. 6 and No. 7 have the same care in manufacturing, all parts milled and hand-filed to fit. All Bits are bored before leaving the shop.

Highest quality is an essential feature in Bits. The quality of a Bit depends not only upon the steel used and the manner in which it is treated but upon the correctness of lead and angle of thread. Our long experience enables us to produce Bits that possess every essential.

# SWAN IMPROVED BORING MACHINES

## Graduated Ways

No. 6708 especially commends itself. The frame is made of wrought iron resting on a wooden base, and is adjustable for both upright and angular boring. Light and strong. The adjusting frame folds up, and by detaching handles, its value as a portable machine is thereby increased.

No. 6708

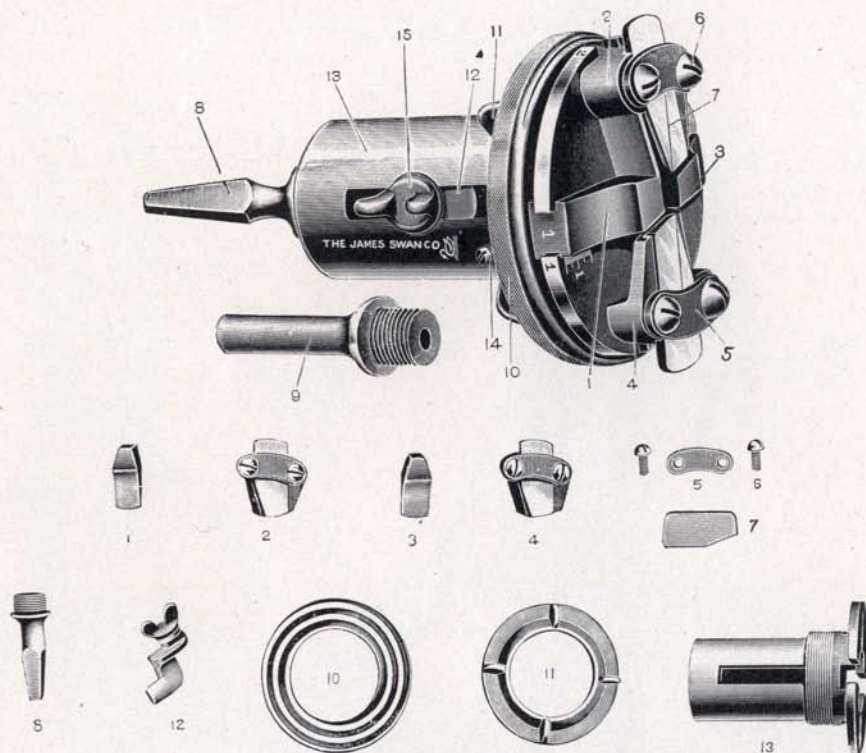

No.	Frame	Type	Each
6708	Iron	Angular	\$12.00

\* Priced without Augers.

Two in a case

\*For illustrations and prices of Boring Machine Augers suitable for above machine, see page 67.

# SWAN UNIVERSAL HOLLOW AUGERS

No. 6001 and Parts

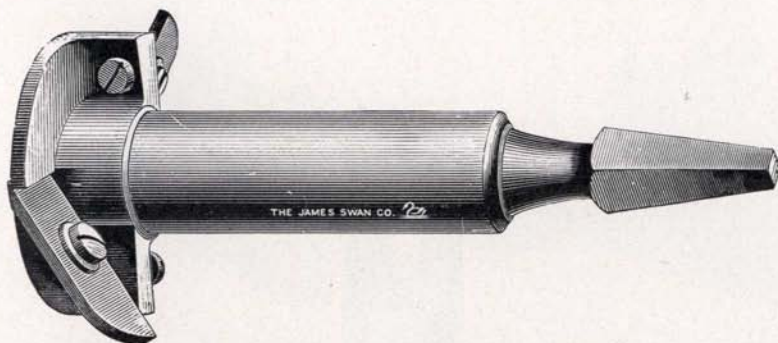

The above cut represents a well known tool and its parts, which can be ordered by number. Through the use of the Universal Chuck, this Hollow Auger can be easily adjusted to any size from  $\frac{3}{8}$  to  $1\frac{1}{2}$  inch. When set to size, with the back screw properly set up, a perfect adjustment and rigid hold are secured. A depth gauge regulates the length of the tenon, and the face is graduated so it can be readily set to any size desired. To cut a smooth tenon, keep the knives ground to the line on the face, and the knives set up so they will not project beyond the center hole. Only the best materials are used and the construction is perfect, representing the highest development of the Universal Hollow Auger.

# SWAN HOLLOW AUGERS AND PLUG CUTTERS

NO. 6002. WITH COOK'S PATENT PLUG BITS, NO. 93

NO. 6003. WITHOUT BITS

The Ames Hollow Augers are so well and so favorably known to the trade that a lengthy statement regarding their merits is unnecessary. We simply emphasize the ease with which the cutters can be sharpened and adjusted for fast or slow cutting. The side screw adjusts the cutter to the precise size wanted.
