# Disston Hand Saws

## D-100

The world's finest handsaw. The cross-cut blade is made of highest quality chrome nickel alloy steel—four gauge true taper ground, precision set and bevel filed for extended use. The aluminum handle provides strength. Good looks and comfort are built into the beautifully finished walnut grain grip.

Blade Length Inch	Points Per Inch	Case Weight Lbs.
26	8, 10	10 <sup>7</sup> / <sub>16</sub>

One in pkg., five in case.

## D-95

This highly polished handsaw is made of the finest Disston steel—precision set, filed and true taper ground. The attractive, walnut grain handle is fully carved.

Blade Length Inch	Points Per Inch	Case Weight Lbs.
----------------------	-----------------------	------------------------

Cross-cut 26	8, 10, 11, 12	9 <sup>3</sup> / <sub>16</sub> 9 <sup>3</sup> / <sub>16</sub>
*Rip 26	5 <sup>1</sup> / <sub>2</sub>	9 <sup>3</sup> / <sub>16</sub>

One in pkg., five in case.

## D-23

This professional handsaw is used and endorsed by more carpenters than any other saw. The blade is made of highest quality chrome nickel alloy steel, full taper ground, bevel filed, hardened, tempered and highly polished for cutting ease. The handle is a beautifully finished hardwood.

Blade Length Inch	Points Per Inch	Case Weight Lbs.
----------------------	-----------------------	------------------------

Cross-cut 16	11	8 <sup>3</sup> / <sub>4</sub>
20	10	11 <sup>1</sup> / <sub>16</sub>

22	10	12 <sup>3</sup> / <sub>8</sub>
26	8, 10	19
*Rip 26	5 <sup>1</sup> / <sub>2</sub>	19

Two in pkg., ten in case.

## D-7

Ideal for school and workshop use, this rugged, easy-cutting saw is carefully made from hardened, tempered steel. The blade is taper ground. The handle is made of solid hardwood.

Blade Length Inch	Points Per Inch	Case Weight Lbs.
----------------------	-----------------------	------------------------

Cross-cut 26	8, 10	18 <sup>7</sup> / <sub>16</sub>
*Rip 26	5 <sup>1</sup> / <sub>2</sub>	18 <sup>7</sup> / <sub>16</sub>

Two in pkg., ten in case.

## M-1 Metropolitan

The cross-cut blade of the Metropolitan is made of high alloy steel, taper ground and polished. The teeth are bevel filed for easier cutting. The handle is carved from beautifully finished hardwood.

Blade Length Inch	Points Per Inch	Case Weight Lbs.
----------------------	-----------------------	------------------------

26	8, 10	18
----	-------	----

Two in pkg., ten in case.

## R-1 Rancher

The Rancher is designed for the frequent user. The polished blade is made of special saw steel, bevel filed for faster cuts. The hardwood handle is tightly secured with four screws (three screws on the 20 inch model).

Blade Length Inch	Points Per Inch	Case Weight Lbs.
----------------------	-----------------------	------------------------

Cross-cut 20	10	11 <sup>1</sup> / <sub>2</sub>
26	8, 10	18
*Rip 26	5 <sup>1</sup> / <sub>2</sub>	18

# Disston Hand Saws

## C-1 Countryside

This sturdy cross-cut saw is used primarily around the farm, shop or home where occasional use of a saw is required. The blade is hardened, tempered, set and filed for long service. The handle is carved hardwood.

Blade Length Inch	Points Per Inch	Case Weight Lbs.
16	10	8 <sup>3</sup> / <sub>4</sub>
20	10	11 <sup>1</sup> / <sub>2</sub>
26	8, 10	18

Two in pkg., ten in case.

## T-1 Townsman

This cross-cut saw is designed for infrequent use. It is a high performance, economically-priced handsaw made of hardened, tempered and polished steel. This accurately set saw has a solid hardwood handle.

Blade Length Inch	Points Per Inch	Case Weight Lbs.
26	8	9 <sup>1</sup> / <sub>2</sub>

Five in pkg.

## Challenger II

This is the ideal extra saw for camp, cottage or home. An economically-priced general purpose saw, it is designed to take a beating. The new, heavy duty handle has a rich scroll design on both sides.

Blade Length Inch	Points Per Inch	Case Weight Lbs.
20	10	10
26	8	14

Ten in pkg.

## D-230SS

This professional handsaw has a Teflon-S® coated, full taper ground blade of finest steel. The teeth are bevel filed and precision set and sharpened. Walnut grain handle.

Blade Length Inch	Points Per Inch	Case Weight Lbs.
Cross-cut 26	8, 10	9 <sup>3</sup> / <sub>4</sub>
*Rip 26	5 <sup>1</sup> / <sub>2</sub>	9 <sup>3</sup> / <sub>4</sub>

One in pkg., five in case.

## 220SS

This full length cross-cut handsaw is designed for all purpose cutting. The Teflon-coated blade cuts easily—even through green wood. The teeth are bevel filed and accurately set. The handle is hardwood.

Blade Length Inch	Points Per Inch	Case Weight Lbs.
26	8, 10	18

Two in pkg., ten in case.

## 218SS

This cross-cut saw is designed for the homeowner. The long service blade is coated with Teflon-S®, set and filed. The comfortable handle is made of carved hardwood.

Blade Length Inch	Points Per Inch	Case Weight Lbs.
26	8, 10	18

Two in pkg., ten in case.

## 214SS

The economy leader of the Teflon saws, the 214SS has a hardened steel blade, set and filed, and a high impact plastic handle. It makes the luxury of Teflon available to the occasional user.

Blade Length Inch	Points Per Inch	Case Weight Lbs.
26	8, 10	18

Two in pkg., ten in case.

## 28 Toolbox Saw

This professional handsaw is designed for easy carrying in the toolbox. The hardened and tempered steel blade is file sharpened for smooth cutting and the comfortable handle is made from fully lacquered hardwood.

Blade Length Inch	Points Per Inch	Case Weight Lbs.
12	10	4 <sup>5</sup> / <sub>16</sub>

Six per box.

# Disston Handsaw Accessories

## No. 24 Saw Set

This popular medium priced pistol grip type saw set is designed with an open top for a clear view of the work area. The plunger and handle are both made of hardened steel for extra durability. It is adjustable for a variety of different saws including hand and panel saws, back saws, butcher saw blades, band saws and small circular saws.

Catalog Number	Weight Package, Lbs.
24	1

One in a pkg. **FLC 2703**

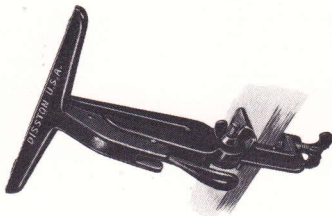

## No. K-32 Saw Set

This well-constructed, popularly priced tool has a pistol grip and an open top for a good view of the work area. The plunger and anvil are made of hardened steel and a graduated wheel is provided which adjusts the anvil for 5 to 11 point saws.

Catalog Number	Weight Package, Lbs.
K-32	1

One in a pkg. **FLC 2703**

## No. 2 Filing Clamp

This clamp can move forward and backward to any angle and still clamp easily into position with a thumb screw. To grip the saw blade firmly, pressure on the malleable iron lever is all that is needed. Jaws are 9 1/2 inches long.

Catalog Number	Weight Package, Lbs.
2	6

One in a pkg. **FLC 2703**

## No. 66 Universal Handle

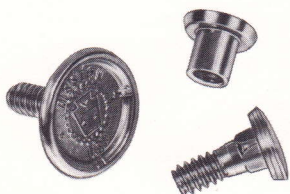

Constructed of fine hardwood, the Universal saw handle is beautifully finished and designed to fit almost any hand saw. The handle is not pre-slotted or drilled. Six in a pkg., minimum order 1 package.

Catalog Number	Weight Package, Lbs.
66	6 3/4

Six in a pkg. **FLC 2520**

## Saw Screws

Strong heads and deeply cut thread. Polished Medallion heads are stamped Disston, U.S.A. Nickel-plated.

Catalog Number	Diameter Head Inch	Weight Package Ounce
1	1/2	4
3	1 3/16	6

Ten in an envelope, ten envelopes in a pkg., nuts included.

**FLC 2520**

## D1300 Handsaw Display Pack

The D 1300 Handsaw Assortment is loaded for sales action. Disston has stocked this assortment with proven leaders spanning every price range. We offer a FREE, specially crafted, antique green, hardwood display rack. The rack is designed so that one saw is suspended with the blade face showing. This design feature teamed with our new Hang tags let your customer examine the quality features of the Disston Handsaw.

Each display also includes a Handsaw Guide Book which provides very helpful "trick-of-the-trade" plus some very informative facts about types of handsaws.

**FLC 1205**

# Disston Bow Saws and Pole Tree Pruners

## Bow Saws

Bow saws with Industrial Hard Teflon-S® coating. The ideal saw for pruning, camping, around the home, and general outdoor use.

The Industrial Hard Teflon-S® coating is a baked on finish that won't wear off, won't rust . . . actually outlasts the life of the blade. Blade zips through green and wet wood. No binding or sap buildup.

Special comfort grip handle on the Teflon coated models is coated with elastic plastisol for sure, non slip gripping. The Torsion-Bow insures proper blade tensioning. Quick action release facilitates blade removal or changing with a flip of the tension lever handle.

All Disston Bow Saws are constructed of heavy duty tubular steel frames, with double nickel chrome plating. Protective blade sheath furnished.

Disston Bow Saws are available in the popular 21", 30", and 36" size for every homeowner and professional use. Choose either the Teflon-S®, or conventional blades—both with popular Nordik Raker Tooth style. Replacement blades for all 6 models.

### Complete Bow Saws with Teflon Coated Blades

## No. 200SS Nest of Saws—Carded

A combination saw kit designed for radius type cutting where binding is most apparent. The blades of this kit are coated with DuPont Teflon-S® which greatly reduces binding and cutting effort. This finish is permanently bonded to the blades and even if scratched or abraded, it is retained in the grain of the steel. The Teflon-S® coating also reduces buildup on the teeth and prevents rust.

The kit includes one 12", 8 pt. cross-cut all purpose wood-cutting blade and one 12", 10 pt. fine tooth finish cut blade. The sturdy molded handle provides quick blade changing and adjusts to eight cutting positions.

Catalog Number	Length Blade Inches	Points Per Inch	Case Weight Lbs.

# Disston Has the Right Style for Every Job

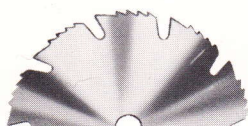

**Rip—Style "A"**  
For cutting with the grain only.

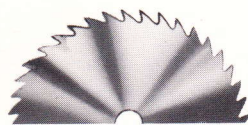

**Crosscut—Style "L"**  
For cutting across the grain. Cut-Off (Style "L"). Used in squaring and trimming to size, smooth cutting.

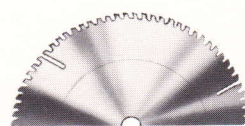

**Combination—Style "W"**  
Popular with building contractors. Coarse tooth spacing for easy feeding. Ideal for trimming roofers and all-purpose construction work. Cross cuts, rips, mitres.

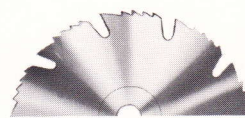

**Combination—Style "S"**  
Ideal home workshop saw for all-purpose combination jobs on bench and portable machines. Gives smooth, fine finish for rip, diagonal or cross grain cutting work.

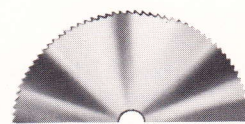

**Combination—Style "V"**  
Similar to Style "W", except finer tooth spacing for smoother cuts.

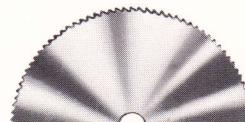

**Special Purpose Plywood—Style "Q"**  
New special design for amazingly smooth, splinter-free plywood cuts. Hollow-ground, extra sharp.

**Special Purpose Planer—Hollow Ground Style "S"**  
Designed for finishing work. Hollow-ground blade, allows cutting in any direction and produces extremely smooth cuts requiring no sanding.

**Special Purpose Flooring**  
Extra durable, special steel and temper for rough work. Ideal for old, used lumber where nails may be encountered. Cuts in any direction.

**Style UPL Plywood**  
A fine toothed design for an extra smooth finished cut in plywood.

**Style MT Abrasive Cut-Off**  
Ideal for cutting both ferrous and non-ferrous metal tubing, sheets and bar stock.

**Style MA Abrasive Cut-Off**  
Used for cutting tile, tile patio block, slate and concrete block.

## Disston Teflon-S® Coated Circular Saw Blades

Now professional quality Disston circular saw blades with self lubricating—self healing Teflon-S® give precision cuts in less time. Disston Satin Slide™ Circular Saw Blades offer new cutting ease for the pro and home handy man. Less blade-to-wood friction means faster cuts, more feed and less motor power required. Each tooth is individually set and sharpened, full bevel filed to assure clean cuts, longest blade life. All Teflon-S® coated blades may be resharpened and set as required without effecting the smooth cutting action. Available in sizes and styles shown in chart. Attractive heavy gauge "Envelope Style" packaging provides maximum sell plus effective Point-Of-Purchase impact. Package doubles as permanent blade protection.

# Disston Teflon S<sup>®</sup> and Challenger Sabre Saw Blades

## Disston Teflon-S<sup>®</sup> Coated Sabre Blades

**Turn Tighter—Cut Smoother**—these Satin Slide™ Sabre Saw woodcutting blades glide through tightest turns with ease. Following pattern lines is a cinch due to remarkably smooth, bind-free cutting with Teflon-S. Smoother corner finishing, easier plunge cuts are among the many advantages of these blades.

**Blades Stay Clean**—Teflon-S burnishes to a harder, smoother finish which resists wood impurity build-up.

**Won't Rust**—self lubricating, self healing Teflon coating lasts for life of blade. Accidental marks are covered as blade burnishes.

**Blade Resists Breakage**—reduced friction helps prevent blades from jamming in work or snapping from undue strain.

Light BP6774 BP6775	D D	24 32	4 4	Sheet metal lighter than 18 gauge; trim; tubing; radial cutting. Very light gauge metals, trim.

# Disston Challenger Hole Saws, Band Saws and Mandrels

## Challenger Hole Saws and Mandrels

Challenger Hole Saws properly used, will make clean round holes in both hard and soft materials. . . using slow speeds when cutting hard materials and faster speeds when cutting wood, plastics and other soft material. In soft materials the saw should be withdrawn frequently to free the chips faster.

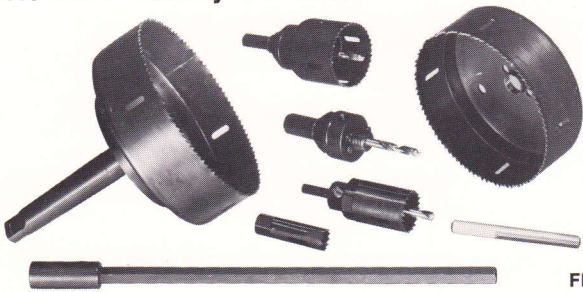

When starting a hole, always use a center punch to locate the pilot drill. Exert enough pressure to keep the teeth cutting evenly without overloading the drill. Blanks remaining in the saw can be pushed out with a nail through the slots in the side or the holes in the back of the saw. Challenger Mandrels have removable pilot drills which can easily be removed or replaced by loosening the socket set screw.

Challenger Hole Saws must be held on a mandrel. All saws except the HS005 (which has a built in mandrel) are quickly replaceable and are interchangeable on mandrels HSM01 and HSM02. All mandrels have a 1/4" shank. Challenger Hole Saws are also slotted to fit mandrels of other manufacturers which are similar to the HSM01 and HSM02.

Catalog Number	Size	Mandrel Number
HS005	5/8	Built in Mandrel
HS007	7/8	HSM01
HS009	1 1/8	HSM01

# Disston Precision Rule

## Disston Precision Rule

- Smooth Operating Action
- Comfort Styling
- Rugged Construction
- Free Belt Clip
- Exclusive Swing Tip Allows Greater Accuracy
- Two Color Blade

### Long Life Ura Clade Blade

The Disston Precision Rule has a comfort tested triple chromed case. Self-lubricating guides give smooth action. A positive screw assembly allows durable long lasting operation. Long-life Ure-Clad blade with bold red and black markings will withstand continual wear and tear, won't blister or peel.

Catalog Number	Blade Specifications	Weight Carton Pounds	Replacement Blade Number
226 S	1/2" x 6' Etched	1.8	6R
228 S	1/2" x 8' Etched	1.9	8R

# Disston Sure-Lock Power Rule

## Disston Sure-Lock Power Rule

- Positive Locking System
- Smooth Power Return
- Comfort Styling
- Free Belt Clip
- Easy Finger Action
- Two Color Blade

### Long Life Ura Clade Blade

Positive "Sure-Lock" system assures that the blade is locked at the precise point where it is set. A simple flick of the thumb locks or unlocks the blade. Precision power return mechanism assures that the blade retracts quickly and smoothly.

Other features include Disston's exclusive "swing-tip," Long-life Ure-Clad blade and bold red and black markings on the blade.

Catalog Number	Blade Specifications	Weight Carton Pounds	Replacement Blade Number
3408 SL	1/2" x 8' W/Y*	2.6	8W
3410 SL	1/2" x 10' W/Y	2.8	10W

## Disston Contractor's Tape

The Disston heavy-duty steel Contractor's Tape has a chrome finish with original "take-apart" case that allows easy cleaning and blade replacement. The crank folds flush into the case when not in use.

The blade is graduated in 8ths on both edges with easy to read black markings. There are stud markings every sixteen inches. The tempered tool steel end hook has a nail hole at the zero mark.

Extra heavy-duty blade.

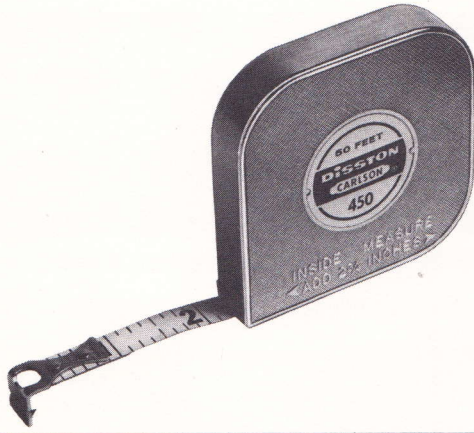

Catalog Number	Blade Specifications	Weight Pkg. Lbs.	Replacement Blade No.
525	3/8" x 25' W/Y*	1.3	25W
550	3/8" x 50' W/Y	2.0	50W
5100	3/8" x 100' W/Y	3.5	100W

W/Y—White or yellow face

\*For yellow blade specify prefix letter "Y." All rules carded.

In individual display packs—two to a package. Minimum order one package.

## Long Tape for Home Craftsman

This small, lightweight tape has a sturdy die cast chrome-finish "take apart" case with a square stand-up base. The tempered tool steel end hook has a nail hole at the zero mark.

The blade is graduated in black, in 8ths on both edges, with stud markings every 16 inches. Blade standard gauge thickness.

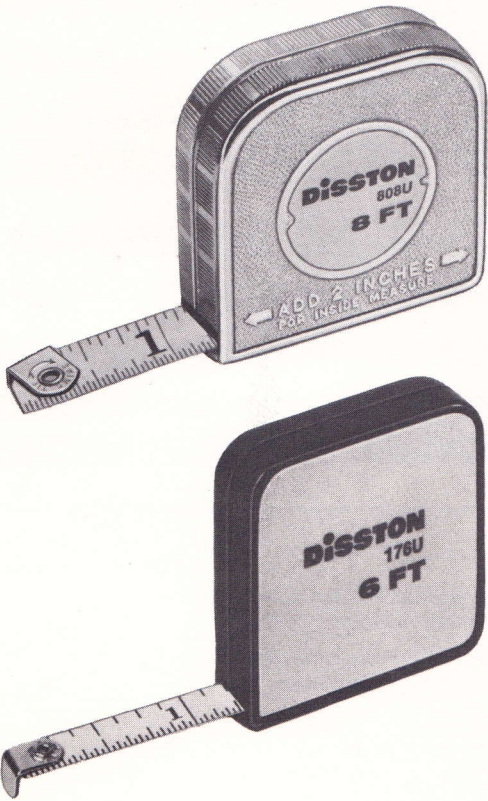

Catalog Number	Blade Specifications	Weight Package Pounds	Replacement Blade Number
425	3/8" x 25' White Faced	1.3	25 WC

Wire display designed for pegboard with 8 tapes

Catalog Number	Size	Quantity
67LT	3/8" x 50	4
4100	3/8" x 100	2
550	3/8" x 50	2

## Utility Rule

The Disston Utility Rule is the heavy usage rule at an economy price. Its rugged die-cast case is designed for handling comfort under continuous usage. Positive screw assembly and push-pull return means dependable performance and long-life under tough working conditions. The Long-Life Ure-Clad blade and bold black markings on a bright yellow blade make the Utility Rule one of the easiest rules in the industry to use and maintain.

Catalog Number	Blade Specifications	Wt./Carton (Lbs.)
806 U	1/2" x 6' Y	1.6
808 U	1/2" x 8' Y	1.8
810 U	1/2" x 10' Y	1.9
812 U	1/2" x 12' Y	2.1

Y—Yellow Face. All rules carded. Packaged one to a display card. 6 per carton.

## Utility Pocket Rule

The Utility Pocket Rule is the most inexpensive quality rule you can buy. Its rugged, high-impact Delrin case stands up where lesser rules fail. Its slim-line design makes it a natural for pocket or purse. The Pocket Rule comes with the consumer preferred Long-Life Ure-Clad blade—easy to read black markings on a bright yellow blade.

# Disston Replacement Blades and Folding Rules

## Replacement Blades

Disston offers individually blister-packed replacement blades for Stanley, Lufkin, Evans and all other brands of rules. These tough long-life blades will stand up under the hardest use. Tie one in a knot! It will snap right back to its original shape.

## Long-Life Ure-Clad Blade

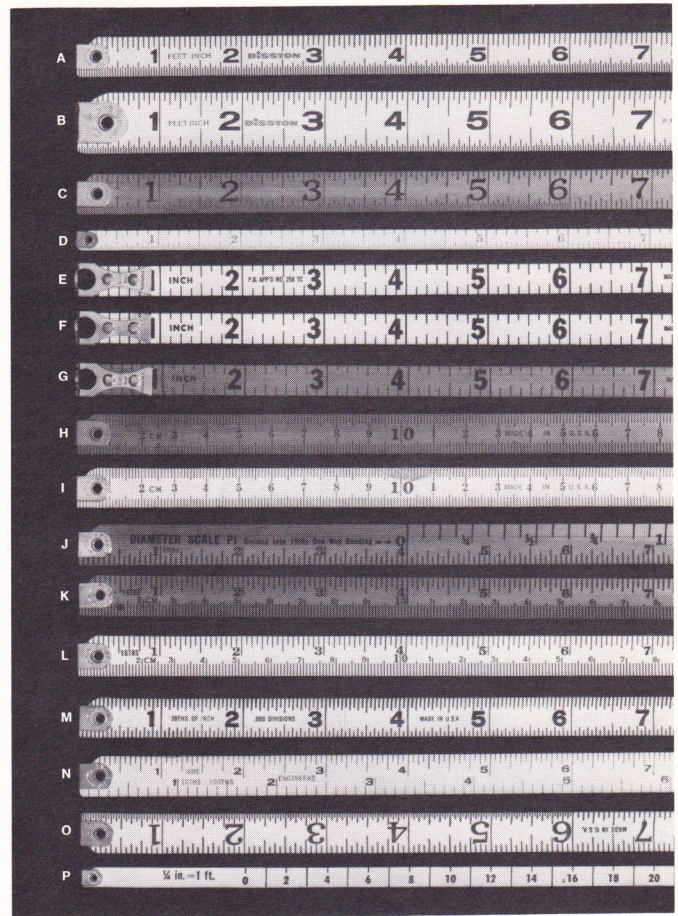

A tough urethane coating makes Disston blades the most abrasion resistant available. (They resist most oils, acids and alkalis.) They are easy to read—imprinted in bold black and red on white or yellow. Swing tip for accurate inside reading.

Durable rule blades from Disston—they measure up to Disston's high standard of quality.

(All white—yellow face blades in sections A, B & C are two color printed—red and black)

Important: When ordering from sections A, B & C specify whether you wish white or yellow finish.
